

# BODEWELL

博进工业包装 STRAPPING SYSTEM

# SH-2.5 机芯

## STRAPPING HEAD

**4500N**

**捆紧力**

Tension Force

保证货运安全

Ensure the safety of load goods transportation

**高频摩擦**

High Frequency  
Friction

开机即用，接头均匀饱满

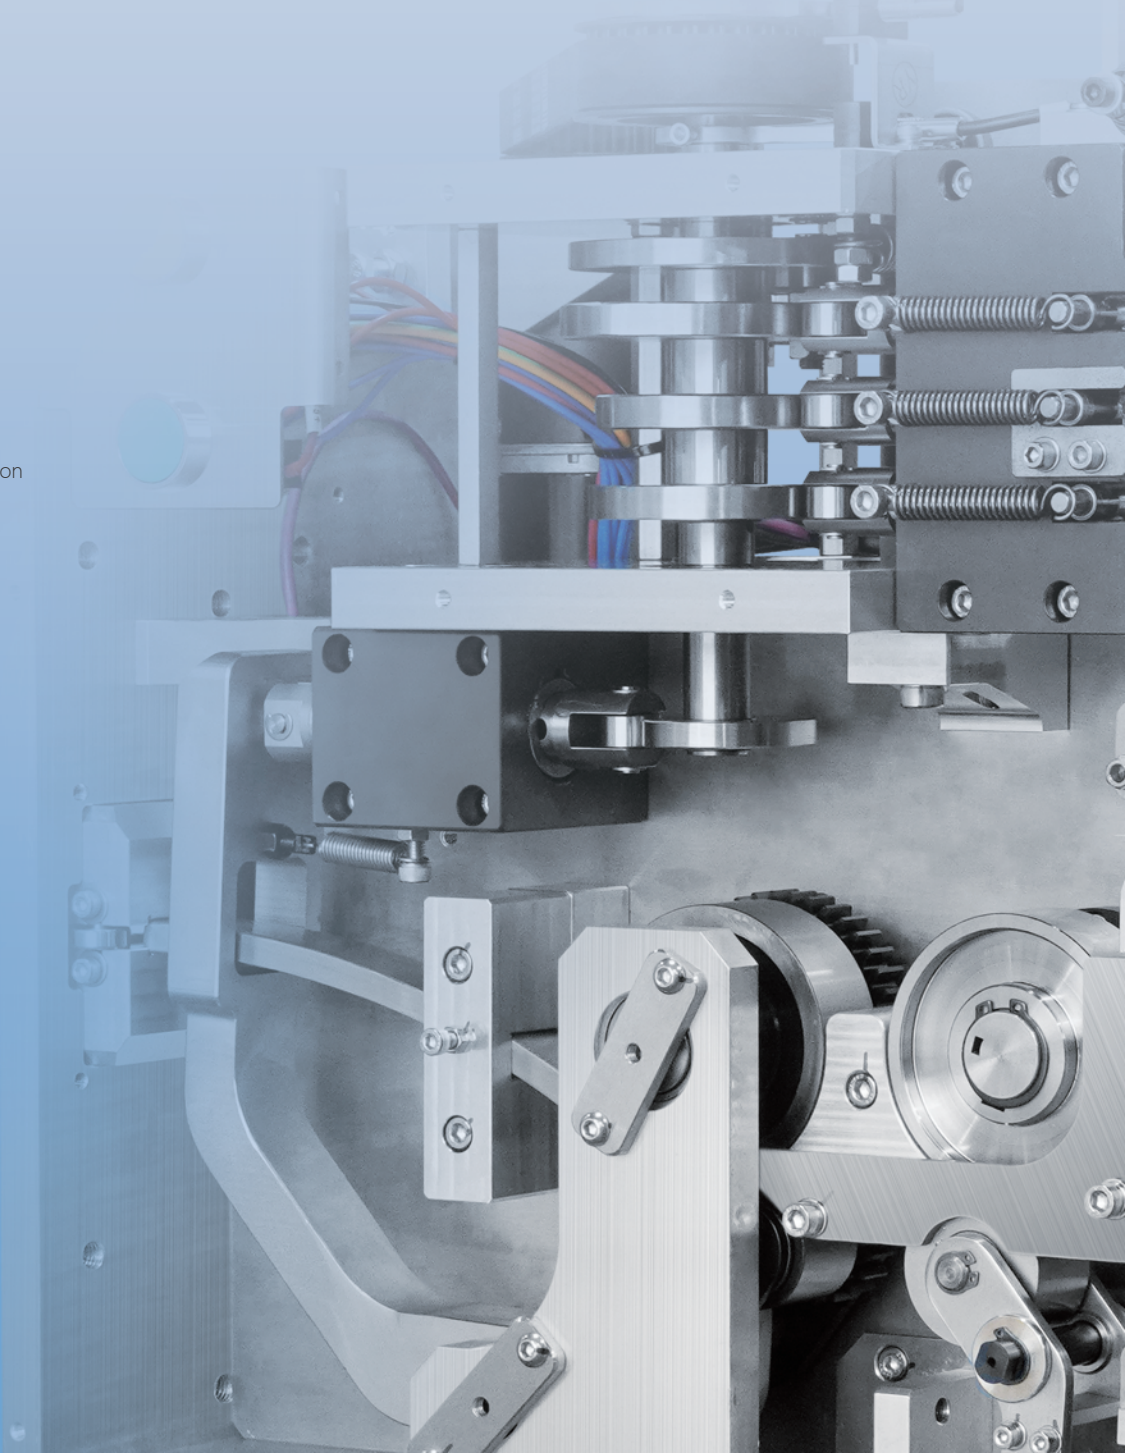

Without hot knife, high joint quality

**模块化设计**

Platform  
Module Design

易用可靠

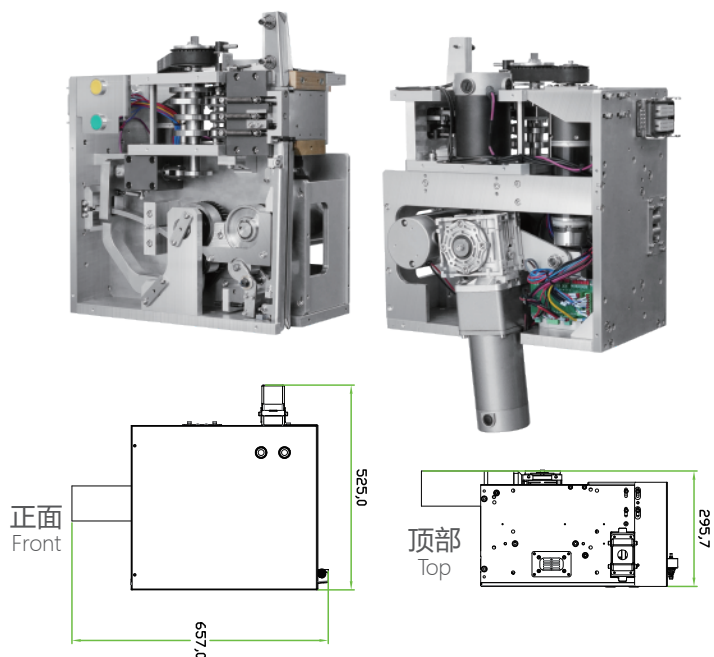

Easy maintenance

项目/Items	参数/Technical Data
捆紧力度 Tension force	200-4500N
接口方式 System interface	摩擦焊接 Friction welding
搭接强度 Tensile strength	80%
送带速度 Feeding speed	4.5m/s
焊接时间 Weld time	0.5-1.0s
打包带规格 Strapping belt size	宽度/Width: 16mm 厚度/Thickness: 0.6-1.0mm
	宽度/Width: 12mm 厚度/Thickness: 0.55-0.8mm
	宽度/Width: 19mm 厚度/Thickness: 0.8-1.27mm

## SH-2.5 机芯尺寸图

### SH-2.5 Strapping Head Dimension

### 二维码追溯系统

QR code traceability system

- 核心配件自主加工，保证品质，可扫码追溯，便于查询，部件专属身份证是我们制程和品质体系保障的完美体现

Core accessories independently process to ensure product quality, customers can scan code traceability for easy inquiry. The component exclusive ID is the perfect manifestation of our process and quality system guarantee.

### 模块化设计

Platform Module Design

- 做扣，收送带，机芯模块化设计，轻松将机芯接入现有控制系统，让设备维保更简单

Making buckle, feeding belt, strapping head use of modular design, easily connect the strapping head to the existing control system, so that the machine maintenance is simpler.

### 核心配件品质承诺

Core accessories quality promise

- 做扣模块、束紧轮模块等核心部件，均承诺100万次打带周期寿命，降低总拥有成本

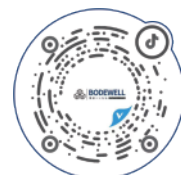

Core components, such as buckle module and tightening wheel module, are committed to 1 million times of belt cycle life and reduce total cost of ownership.

### 应用行业

Application

纸业 / 仓储物流 / 化工 / 建材

Paper Industry / Warehousing And Logistics Industry / Chemical Industry / Construction Industry
